

## 50 Years World Heritage Convention: Shared Responsibility – Conflict & Reconciliation

On the 16<sup>th</sup> November in 2022, the World Heritage Convention is celebrating its 50<sup>th</sup> anniversary. Meanwhile more than 160 countries have inscribed properties on the World Heritage list. The celebration of this birthday is therefore the right time and the appropriate setting to reflect on whether the goals and contents of the Convention have been implemented accordingly. With our open access book [50 YEARS WORLD HERITAGE CONVENTION: SHARED RESPONSIBILITY - CONFLICT & RECONCILIATION](#), including more than 60 authors from 28 countries, we not only undertake a critical reflection on the implementation of the Convention. We do it with the international perception of World Heritage, highlighting the various forms of heritage destruction, analysing their causes and proposing strategies for avoiding and solving conflicts.
